# Agility Trail 7

**KOMPAN**<sup>®</sup>  
Let's play

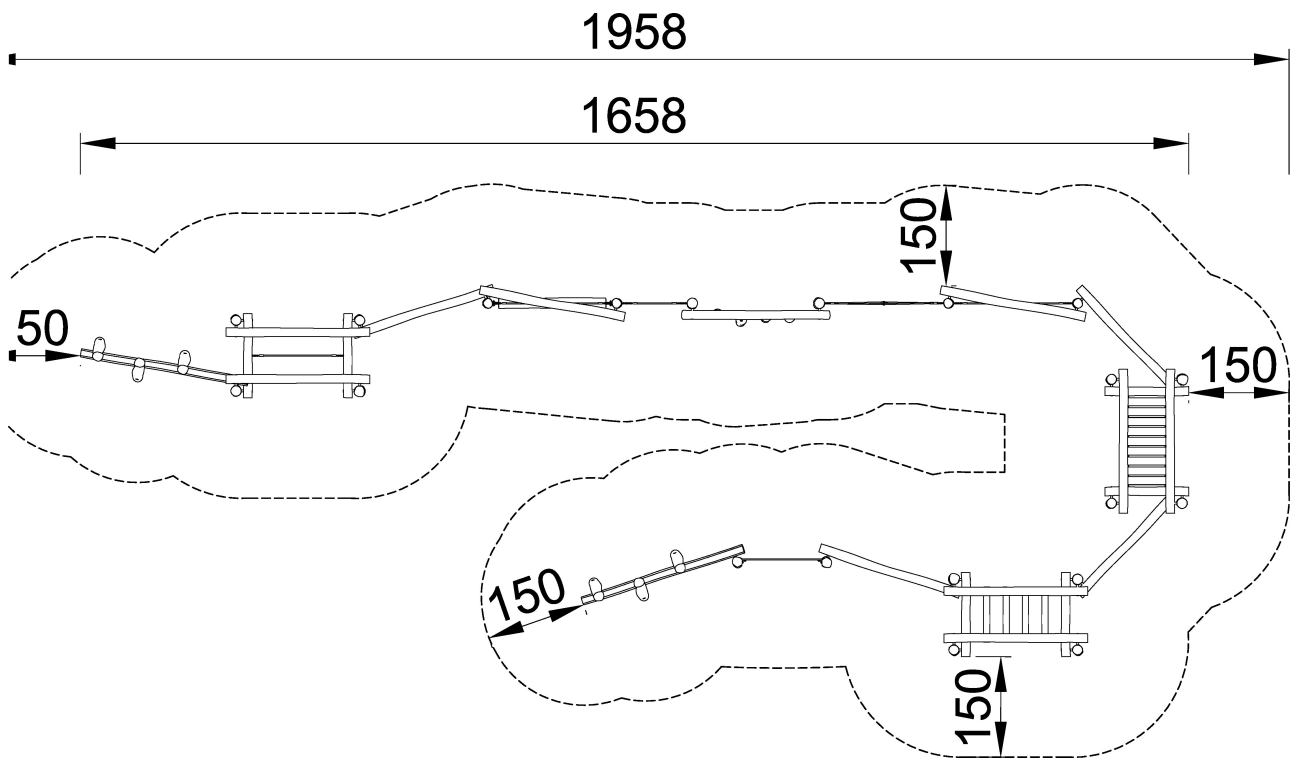

The enormous Agility Trail 7 is a challenge that children of all ages and of many abilities will want to test. And they will return again and again to try it out, perhaps with the whole family. The rich variety of balancing, swaying, climb-and-crawl activities are great trainers of the sense of balance. The sense of balance is necessary in managing many areas of life, e.g. concentrating and even being able to sit still. Both are necessary for learning. When doing loops of don't touch the ground on the Agility Trail 7, children also train important social-emotional skills such as turn-taking, consideration of others and cooperation. In conclusion, the variety of activities and the rounded lay-out is what makes the Agility Trail 7 a desirable trainer of fundamental physical and social-emotional life skills.
