

Awesome play motivation in a cool, transparent framework draws the attention of bigger children. Their curiosity is rewarded when they start exploring the play moves of Enif. The challenging climb and sway-journey through responsive ropes, is challenging. The Route can be altered endlessly, so children will want to outperform previous attempts again and again. The end points, one open, seated, one closed over a wobbly play shell, invite children for more sheltered or open breaks. The wobbly climbing events of Enif train the child's motor skills ABC: Agility, Balance and Coordination. Muscles are strengthened from the climbing and clinging onto ropes and cleats. Bone density is build when jumping off. The meeting and cooperation takes place in the climbing links and ends, supporting e.g. turn-taking and socializing.

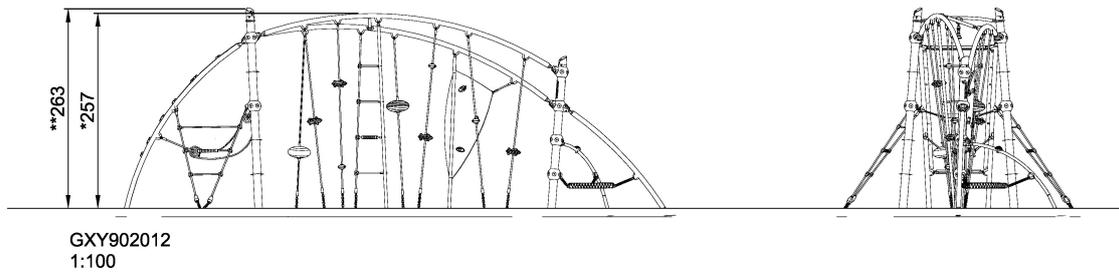

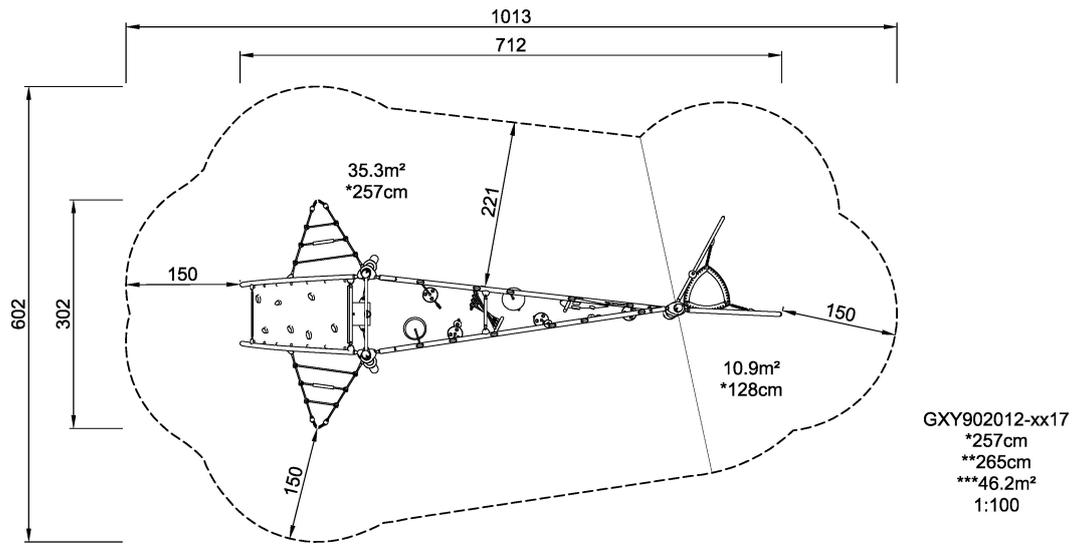

Product Line	Urban climbing
Category	GALAXY™
Age group	6 - 12
Max. fall height (CM)	257
Total height (CM)	265
Safety Zone	46.2 m2
