

KSW924

Portal Swing 4 Seats, Anthracite Legs & Connector

Portal swings are a modern update on a traditional favourite, constructed from galvanised steel. The swings are available in three heights: 2.0m for preschool, 2.5m and 3.0m for school age playgrounds. This highly modular system makes it possible to offer multi-bay swings with as many additional bays as you wish. Each section can be equipped with standard, toddler, cradle or bird's nest seats. Anti-wrap suspensions are available for both standard and cradle seats.
