# Mega deck play tower ADA

**KOMPAN**  
Let's play

This multilevel, multi-activity play structure allows varied accesses to the elevated level. From here the child can chose between a traditional slide down or, alternatively, the great bannister bars. It's designed to allow for children with walkers or wheelchairs using the stairway, which complies with the American's with Disabilities' Act Guidelines for Accessibility. The stairway is wide enough for an adult care-giver to assist a child upwards. The product is available as FSC® Certified (FSC® C004450) robinia wood on request.
