

The shiny embankment slide motivates fun play activity for all children and those childish at heart. Due to the embankment run loop, children will run up and slide down again and again. Sliding on the embankment slide is an extra fun experience, as friends can run up or down next to the sliding child. There is room for many and for different ages and abilities. The embankment hill is a great place for rolling or running, too. When children slide they train their core muscles, sitting upright while rolling down. This stimulates their trunk stability, important for avoiding back and neck pains ? a growing problem in children due to sedentary lifestyles. Run uphill or downhill they train their balance and coordination as well as their muscle strength. They train muscle tonus needed and train risk taking in holding back or letting go downhill.
