# Music Play Panel

**KOMPAN**<sup>®</sup>  
Let's play

The Music Pipes offer sensory variation with a tuned and tonal sound outcome and are great trainers of cause and effect and hand-eye coordination. The black rubber flaps can be plunked so that sounds occur. Sounds can also be created just by clapping at the tubes. The stage is set for a wide variety of play and cooperation possibilities. The tubes are tuned to create a recognisable tonality to young children and their adults and can be played in all sorts of patterns to create new tunes (from the left: G, A, BB, C, BB, A, G).
